

DANIEL J. MCCARTHY

OBJECTIVE

Join a high-performing engineering team. Work with fun people. Learn.

CORE SKILLS

- Technology strategy, leadership & mentoring
- PHP, SQL, HTML5, JavaScript, CSS
- Analytical, data-driven problem-solver
- Building and consuming REST Web Services
- Proficient with Linux, OS X, Solaris, and Windows
- Building software, dynamic websites & complex email marketing campaigns

PROFESSIONAL EXPERIENCE

eBay Enterprise

Burlington, MA

Software Architect – 2012 to Present

- Lead Architect on multi-million dollar data warehouse & business intelligence project using Talend ETL, SQL, and MicroStrategy
- Data Architect with ownership of strategy and data model for 100TB+ data tier
- Advise C-Level Executives on major technology initiatives
- Develop prototypes to speed up and harden development efforts

e-Dialog

Burlington, MA

Technical Lead – 2011 to 2012

Focused on product and infrastructure projects, as well as development process improvements.

- Successfully conceived, designed, and helped deliver a 100-person, year-long, cross-functional, aggressive and successful scalability project using SQL and Web Services
- Analyzed legacy Oracle database and designed structure for new database platform
- Developed strategies to improve availability and scalability of core platform
- Mentored developers, managers and testers

e-Dialog

Lexington, MA

Senior Software Engineer – 2007 to 2011

Primarily focused on new client implementations, web services, and complex integration projects.

- Create Java applications to help clients understand and use our SDK
- Build Oracle PL/SQL applications to perform content integration and data processing
- Prototype monitoring & troubleshooting applications using PHP, SQL & HTML5
- Identify, diagnose, and solve server and application issues using Linux command line tools, SQL, PHP, and more.
- Help clients integrate with the e-Dialog platform via web services, ETL processes, database design, DNS, HTTP, and SMTP

e-Dialog

Lexington, MA

Email Developer & Producer – 2005 to 2007

- Extensive experience producing, documenting, and deploying complex email campaigns
- Participate in global hiring, training, and sales efforts

McCarthy Web Design & Photography

Cambridge, MA

Freelance Work – 2003 to 2010

- Conceptualize, design, code, and deploy database-driven websites

EDUCATION

Boston University

Bachelor of Arts, May 2001

INTERESTS

Hiking, Skiing, Web Development, and Photography
